PRICE TWO CENTS

AUSTRIAN BATTLESHIP TORPEDOED

MANCHESTER MAN KILLED IN ACTION

Corporal Harry R. Long Dies on French Battlefield--Ninety-One Names on Today's Casualty List

GERMAN BALTIC FLEET NOW AT KIEL

(By Associated Press)
London, May 16.—The entire German Baltic fleet except a few light cruisers was recalled last week to Kiel, where important naval forces are now being concentrated, says a dispatch from Hamburg received in Geneva and transmitted by the correspondent of the Daily Express.

WILL BUILD 18 MORE CONCRETE SHIPS

(By Associated Press)
Washington, May 16.—The immediate construction of 18 concrete tank steamers for the fuel oil trade, with a total capacity of 105,000 tons, and 4 concrete cargo vessels, with a total capacity of 12,500 tons, was decided upon today by the United States Shipping Board.

(By Associated Press)
Washington, May 16.—The casualty list today contained 91 names, divided as follows: Killed in action, 8; died of wounds, 4; died of accident, 1; died of disease, 4; died of other causes, 1; wounded severely, 4; wounded slightly, 55; missing in action, 14.

New England men included in the list follow: Killed in action, Corporal Harry R. Long, Manchester, N. H.; Private Maryam Milecki, Essex, Conn.; died of disease, Private Ernest Campbell, Hingham, Mass.; missing in action, Corporal Edward J. Barnes, West Haven, Conn.; Mechanic Augustus Chapman, Colchester, Conn.; Privates Frank J. Amphionik, Webster, Mass.; Abellard Barbeau, Danvers, Conn.; Norman C. Elliott, Webster, Mass.; Raymond E. Ely, Haverhill, Mass.; Paul A. Peterson, Middletown, Conn.; Walter R. Pierce, Haverhill, Mass.; James E. Hochell, Pawtucket, R. I.; and Howard A. Webb, Ansonia, Conn.

NOTHING FROM THE HEN COOP.

How wide a watchfulness Brother Lewis will need to maintain is shown by the fact that the first two caches of liquor unearthed in June dry New Hampshire were located in a livery stable and a tailor shop—Concord Monitor.

Italian Naval Forces Work Way Into Pola Harbor, Austrian Naval Base, Dodging Patrol Boats of Enemy and Sink Vessel of 20,000 Tons—Italian Sea-planes Also Engage Enemy

MORE TROUBLE FOR GROSSMAN OVER THE BOOZE

Federal Authorities Now Take a Hand in the Case.

The liquor case against Samuel Grossman has been settled as far as the local authorities are concerned, but more trouble is in sight for the latter whose place was raided on Saturday night by the police.

He has withdrawn his appeal offered in police court and settled the \$100 fine with a jail sentence of 60 days—suspended. Now the federal authorities have taken a hand and ordered him before the United States commissioner at Concord to answer to the charge of selling liquor to an unlicensed man. Along with this the internal revenue department gives him a bill for the necessary money to cover the period he was wrongfully disposing of booze.

By the time the final settlement is made he cannot help being convinced that it was not worth while.

Don't let the State Guard company go to any other city or town; Portsmouth is the place for it.

(By Associated Press)
Rome, May 16.—An Austrian battleship was torpedoed by Italian naval forces in Pola harbor early Tuesday morning. It was officially announced today. The battleship was of the Vienna type, 20,000 tons.

It was forced to work its way out of the harbor by dodging the patrol boats and searchlights of the defenders. While the naval operations were progressing an Italian seaplane force engaged Austrian planes above Pola. Two Austrian machines were brought down, and several others were compelled to descend

out of control. All of the Italian planes returned safely to their base.

Paris, May 16.—Artillery action occurred last night on the French front southeast of Amiens, in the Halluilles-Castel sector, says today's official war office announcement. West of Montdidier a German raiding detachment was driven off. The French took prisoners north of Arras.

London, May 16.—The artillery was active last night in the valleys of the Somme and Ancre rivers east of Arras and on the Flanders battlefield, the war office announced today.

WILSON RENEWS FIGHT AGAINST RESOLUTION

(By Associated Press)
Washington, May 16.—President Wilson today renewed his fight against the adoption by the Senate of Senator Chamberlain's resolution of a war inquiry by the Senate military affairs committee.

He advised Senator Thompson that the resolution as amended yesterday by the Senate expenditures committee, is objectionable considering all the circumstances. He told the senator that the Chamberlain resolution even as modified, would in effect authorize a dragnet investigation by the military committee.

RAISE FOR POSTAL CLERKS

Washington, May 16.—An amendment to the Postoffice Appropriation bill, providing for an increase of \$200 a year in the salaries of clerks, letter carriers and certain other postal employees, and increases of 20 percent for rural mail carriers and for employees receiving less than \$300 a year, was adopted today by the Senate.

Employees receiving between \$300 and \$1500 annually would be given increases of 15 percent and the pay of substitute clerks and carriers would

be fixed at 40 cents an hour.

For fourth-class postmasters, the amendment provides that they shall receive 100 per cent of salary cancellations on the first \$100 or less, or in the event cancellations do not exceed \$50, a 20 percent salary increase.

This amendment, offered by Senator Bankhead, chairman of the Postoffice Committee, is practically the same as the Madden-Moon bill which was adopted by the House as a separate measure, except that the amendment provides increases only for the fiscal year instead of making them permanent. Senator Bankhead estimates that about \$10,000,000 will cover the increases.

The debate on the amendment in the Senate was featured by a sharp attack on Postmaster General Darden by Senator Calder, Republican, of New York, who declared the Postmaster General's attitude had been one of unrelenting hostility to any increase in the wages of postal employees.

FOURTEEN SPECIAL POLICE SWORN IN

More Men Added to the Force at the Atlantic Corporation.

The following special police for the Atlantic Corporation were sworn in at City hall on Wednesday: W. P. Sheridan, Elson H. Davis, T. G. Laiden, John J. Quirk, Henry G. Flynn, John M. Butterfield, Edward J. Ahearn, Maurice Connors, Edward Robinson, W. J. Collier, J. H. Whitney, Daniel P. Brennan, John Sullivan, Frank Brackett, George A. Gray.

THE SOVIET PROTESTS TO GERMANY

Russians Will Mobilize "All Necessary Forces in Order to Secure Freedom and Independence of the Russian Republic"

(By Associated Press)
Washington, May 16.—A copy of the protest made by the Soviet government to the German minister of foreign affairs on April 26 against German aggression, made public today by the State Department, shows that the Russians gave notice of their intentions to mobilize "all necessary forces in order to secure the freedom and independence of the Russian republic which is now menaced beyond the limits established by the Treaty of Brest-Litovsk."

AMERICANS BRING DOWN THREE FLIERS

(By Associated Press)
With the American Army in France, Wednesday.—The first official American communiqué issued since the American troops entered the fighting line was issued tonight. The statement reads: "6 p.m. Headquarters American Expeditionary Forces, Northwest of Toul and in Lorraine there was a marked increase in artillery activity on both sides today. Our aviators brought down three German machines. There is nothing else of importance to report."

U. S. TROOPS WANTED ON ITALIAN FRONT

(By Associated Press)
Washington, May 16.—Italy in an informal way has made known to the United States that the presence of American troops on the Italian front is greatly to be desired. It became known here today. A few thousand men under the American flag, fighting officials feel would greatly hearten the Italian civilian population and their troops.

THE WEATHER

Forecast for Portsmouth and Vicinity: Fair tonight and Friday.

Complete House Furnisher.

Portsmouth, N. H.

BIG DECREASE SHOWN IN R. R. EARNINGS

Washington, May 16.—Railroads in the first three months this year earned only \$71,765,000, as compared with \$178,431,000 in the same period last year, making a loss of \$106,666,000. This represents a decrease of 60 per cent. The Interstate Commerce Commission covers all but five of the 156 railroads in the country.

The net income in March was \$22,933,000, or \$7,000,000 less than in March, 1917. This difference, much less than in the preceding months, indicates that conditions are becoming better for government operation and returns from later months may go far toward making up the loss.

KING INSPECTS U. S. AIRMEN

(By Associated Press)

Lincoln, England, May 15.—King George's first inspection of American airmen in training was made this week at a British aerodrome here where a squadron of American aviators is working with British pilots. One of the young British officers at this camp is Prince Albert, and the King and Queen Mary had run down from London to see how their airmen son was getting on.

During the inspection on the parade ground, the King spoke with several of the American officers. The aerodrome is a finishing school for pilots of both airplanes and balloons. The "diers" after passing through their preliminary course, and are taught to loop, roll, and dive, and to become experts in the many other varieties of aerobatics which are the mark of the expert flying men.

Later they complete their education with courses on meteorology and the theory of flight, and finally pass on to a gunnery school and qualify for the rank of lieutenant in summer, if the weather is favorable, the recruit can go through the full program in about ten weeks.

The King and Queen, in the course of about an hour, saw machines and buildings and apparatus none of which was dreamed of three years ago. Special attention was given to a giant Handley-Page machine which rested on a tarmac at the edge of the aerodrome.

The King, after donning a linen duster, climbed into the pilot's seat and the mechanism was explained to him by British and American officers.

KITTERY POINT

Mrs. George Dahl of Boston is spending a few days with Miss Rosemond Wild.

Mrs. Frank C. Frisbee was the guest of her parents in Kittery on Wednesday.

Mrs. Horace Blake of Wedell's Crossing is confined to her home quite ill. Mrs. E. M. Frisbee, Mrs. T. B. Hoyt and Mrs. William Hackney spent Wednesday in Boston.

Mrs. C. N. Todd of Beverly, Mass., is passing a week the guest of Mr. and Mrs. Melvin Blake.

Mrs. Josephine Frisbee and daughter Miss Elyot, have returned from a visit with relatives in Somerville, Mass.

Mrs. William Waldron of Kittery spent Wednesday with her daughter, Mrs. Everett Pennell.

Miss Nan Phillips was a visitor in

Horton on Wednesday, spending the day.

The Bible class of the First Christian church will hold a box and Shadow Party at the home of Mrs. W. T. Coffin this evening.

A rubber social under the auspices of the Ladies Aid Society of the Baptist church will be held Wednesday evening, May 22.

Mrs. Henry Marden will entertain the S. V. Club on Friday evening. Dr. Perley Spaulding of U. S. Bureau of Plant Industry of Washington D. C. was in town today looking over the White Pine blaster rock situation.

The Knitting Bee in Aid of French Wounded meets with Mrs. Lucy Weeks this evening.

Mrs. Della Hoyt pleasantly entertained the Ladies Aid Society of the Baptist church on Wednesday afternoon.

HONORS FOR DEAD ENVOY

Washington, May 16.—With full military honors the body of Dr. Carlos Maria de Pena, the late minister from Uruguay, who died here April 30, was placed on the President's yacht Mayflower and taken to Hampton Roads to be buried in a United States warship to be carried to Montevideo.

EXETER

Exeter, May 16.—The New England Association of Chemistry Teachers will hold its annual spring meeting Saturday at the Phillips Exeter academy. During the day the association will be the guests of the academy. The program will open at 10:30 o'clock by the business meeting followed by a paper by Harry P. Willey of the Exeter high school; address by Prof. Charles Hines of New Hampshire college and luncheon at noon in Alumni Hall. There will be an inspection of the school building at 1 o'clock.

The program of the afternoon will consist of an address, illustrated by lantern slides on "General Development of the Chemical Industry in Britain" by Charles H. Barton, chemist for the Brown company, formerly of the Berlin Mills company, and the Burgess Shipbuilding Fibre company, without doubt the largest chemical manufacturer this side of the Hudson. This will be followed by the inspection of the Thompson gymnasium and the Pittsford playing fields, where a baseball game will be in progress.

The day's program will be brought to a close by an informal gathering at the home of Mr. and Mrs. William Segerblom on Marston street. The association has a membership of 171 members, mostly from New England, and its meetings are open to any persons interested in the teaching or the practice of chemistry. Three meetings are held yearly, usually in Boston, but one meeting a year is usually devoted to a visit to schools at a distance. This is the first time that the association has ever met at Exeter.

Meetings at which the addresses will be given will be held in the main academy building, and to these meetings an invitation is extended to anyone who may be interested in the subjects to be presented. Local interest attaches to the afternoon address by Charles H. Barton, who is a graduate from the academy and whose class will celebrate its 25th anniversary reunion at Exeter next month.

George L. Paul, 78 years of age, died Tuesday at the home of his daughter, Mrs. Frank C. Higgins. He was a prominent citizen of Newfield for many years, and had lived here for many years, and had been practically blind of late. Mr. Paul was born in Newfield, April 27, 1840, a son of John M. and Yvonne C. (Neal) Paul, and received an early education at the public schools there. He learned the machinist trade with the Washburn Machine company of Newfield, and in 1870 went to Albany, Me., where he conducted a machine shop. Later he was employed by Elliott and Bartlett at Steuben, Me., his Maine residence covering a period of 17 years. In 1888 he came to Newmarket, where he resided, working as a machanic. In 1899 he returned to Newfield and was again employed in the Washburn Machine company till failing eyesight compelled him to give up his work. He is survived by a wife and three children, Elmer D. Paul, engaged as a machanic in Haverhill, Mass.; Mrs. Frank C. Higgins and Mrs. Frank Higgins, both of Exeter; and a brother, John W. Paul of Concord. Burial will be in the Rockingham Junction cemetery at Newfield Friday.

Albion E. Miron, son of Eugene Miron of this town, has been appointed to the fourth officers' training camp at Camp Devens, Mass.

The Woman's Christian Temperance union observed "Mothers' Day" Wednesday at the home of Mrs. Bert Dow on Upper Front street. There was an appropriate musical and literary program.

The funeral services of William N. Winton were held Wednesday afternoon at the home on Columbus avenue, conducted by Rev. John D. Leach, pastor of the Methodist church. The funeral was in charge of Undertaker F. L. Jenkins.

Stewart E. Howe has been assigned to be one of the speakers at the Red Cross meeting at Hampton today. The other will be a veteran of Vimy Ridge, who has lost a leg in the battle.

BOSTON'S NEW DEPOT FOR ARMY SUPPLIES

Washington, May 16.—Reorganization of Army supply, purchasing and distribution through the establishment of 13 zones with depots in each was announced today by Acting Gen. Goetz.

Each of the 13 general supply depots will be charged with the duty of keeping in touch with the manufacturing facilities of its zone, and so far as possible all food, clothing and equipment for the training camps will be brought within the zone in which a camp is located.

The headquarters of the Northeastern zone and the territory assigned to them are:

Boston—Maine, New Hampshire, Vermont, Massachusetts and Rhode Island.

New York—New York State, Connecticut and that part of New Jersey north of Trenton, including that city.

NORTH HAMPTON

Farming operations here are rushing to full capacity. Help is very scarce, high wages are offered, but the prices will not produce the men. There will be a larger number of acres under cultivation, and more grain will be raised. Nearly every farm has put in one or more acres of wheat, and probably the largest wheat field in this section of the state is here. Mr. Michael Twomey is putting in ten acres of corn, the Stickney variety, from this field seed corn will be selected to help fill demand for this high grade corn. Mr. Twomey is a very busy man, and owner of some of the best land in this section, he not only works his large farm here at Exeter but also tries to help his neighbors who call on him.

Mr. Charles L. Barton, one of our prominent farmers, and one of our best informed, and largest producers of apples in this town, deserves much credit for his efforts along this line. Mr. Barton has made a careful study in the care of his orchards, seeking the best information from high authority. He has also advanced a step further, having several improvements which are original with him. One hundred new trees have been planted this year. He now has an orchard of more than ten acres under cultivation. There are one hundred McIntosh Reds, one hundred Gravensteins, and the others Bartlett, Wines, Mr. Barton had one graft second year set, last year bore nine large apples. His apple crop last year sold for about \$1000.

On Saturday evening a west bound freight, a box car, after running on the ties for nearly half a mile, jumped from the track and went across the track, nearly opposite the passenger station. This threw off the next car. The wrecker from Portsmouth was called and it was after midnight when the track was cleared for traffic.

At the Four Corners on Sunday morning, there was discovered a large touring car over the bank, having run through the rolling side of the road, and on the opposite side a large truck with one front wheel completely smashed and every spoke broken from the hub. The accident happened directly under a brilliant electric light.

Freedom Temple, Pythian Sisters, attended the district convention at Portsmouth last Wednesday evening, and exemplified the Knights and Ladies' Degree, and were highly commended in their work by the Grand Officers. Thirty members were in attendance.

ROCHESTER

Rochester, May 16.—The Rochester Country club held a social Wednesday evening at its headquarters at Walnut hill with a large attendance. Supper was served at 6 o'clock, after which there were whist playing and dancing. The committee of arrangements included Mr. and Mrs. William T. Gouness, Mr. and Mrs. Bernard Q. Gould, ex-Gov. Rolland H. Spaulding, Miss Vera Goring, Miss Frances Townes and Arvin Gouness.

A meeting of the Orange Whist club in Orange last Tuesday evening first prizes were won by Arvin Gouness and Miss Cora Goodrich and second by Major and Mrs. James B. Young.

Frank Masse of this city has been transferred from Fort Leavenworth, Mo., to Camp Merritt, N. J.

C. H. McAlpine, who a number of years ago went to Boston to reside is to return to Rochester and devote his attention to roof painting.

George Chase has been here from New York city to visit his parents.

Mr. and Mrs. A. H. Chase of No. 25 Union street.

At a meeting of Division 2, A. O. U. it was decided to hold memorial exercises in St. Mary's cemetery Memorial Sunday when graves will be decorated.

City garden lots have been awarded by City Gardener Otto C. Davis, but there are more applicants this season than there is land and an effort will be made to secure additional land.

The three Odd Fellows lodges of this city have decided to participate in the Memorial day exercises and will appear in the parade. Each lodge has appointed a committee in regard to the matter.

The Twin State Gas and Electric company has plans for the construction of a two story building on Wall street for a sub station and in it there will also be a repair shop.

Rev. S. Golden Zwickler is spending a few days in Hampton, the guest of Rev. Frank Long.

William T. Fisher has gone to Manchester to fill a position as an operator of a steam roller in state highway construction.

Alfred Katherine McDonald has returned from a vacation spent in Quebec.

EXETER GAME STOPPED OWING TO REMARK

Exeter, May 16.—Wednesday's game with Goddard Seminary came to a summary and unpleasant close in the second inning. While two out for Exeter, R. Jones hit safely, drying in two runners, Capt. Jones then hit to Goddard's second baseman, who threw wild to first and the first baseman in turn threw wild to the plate, these errors resulting in three more runs for Exeter. For ground rule in case of a wild throw allows a runner to take out bases in addition to that he is running to.

Goddard protested the decision of umpire Madix allowing the three runs, but matters were seemingly composed by Howard Rogers of the Exeter faculty, and the second inning closed with the score 5 to 0 in Exeter's favor.

As the Goddard players were going to their positions, a player made an insulting remark to Mr. Ross, who ordered Exeter's manager to pay Goddard the money guaranteed, and stopped the game.

Goddard protested the decision of umpire Madix allowing the three runs, but matters were seemingly composed by Howard Rogers of the Exeter faculty, and the second inning closed with the score 5 to 0 in Exeter's favor.

BONNET ROUGE DIRECTOR GIVEN DEATH SENTENCE

Paris, May 16.—M. Duval, who was director of the suppressed Germanophile newspaper Bonnet Rouge, was sentenced to death Wednesday by a military tribunal for treason.

The six other defendants were sentenced to imprisonment for terms ranging from two to 10 years. Every decision of the court martial was voted unanimously.

M. Marton, assistant manager of Bonnet Rouge, received 10 years' imprisonment at hard labor.

Jacques Landau, a reporter on the newspaper, was given eight years at hard labor.

Goldsky was sentenced to eight years in prison and fined 5000 francs, with sentence suspended.

M. Jovela, a reporter on the Bonnet Rouge, was given five years at hard labor.

Jean Leymarie, former director of the Ministry of Interior and later head of the Secret Service, was given two years in prison and fined 1000 francs.

At the last Food Demonstration held on May 6th, the subject of Child Feeding was graphically brought before the women of Rye by a little play in which Miss Emerson tried to show the difference between right and wrong feeding of little children. It should be a matter of common knowledge that fried foods, rich pastry, tea and coffee are not food for children, but it is a surprising fact that dangerous ignorance and thoughtlessness exists among otherwise intelligent people, regarding the kind of nourishment their children are receiving.

Because of the many readjustments of living conditions in these days of stress, the welfare of the child is in constant danger of being overlooked, and the Women's Committee of National Defense is undertaking the great and far-reaching work of protecting the lives of these future citizens against unwise legislation which reacts upon their home conditions, and against any relaxation of the existing laws against child labor. More important still is the constructive work of educating those who care for young children, and the first lesson to learn in this greatest of all professions is the A. B. C. of child nutrition. The leaflet on Child Feeding which has been distributed among the women of Rye should be carefully studied and preserved for reference, as it is the basis of further demonstrations along this line. The date of the next lecture is set for the afternoon of June 5th at the Wedgewood school.

Women loves a clear, rosy complexion. Burdock Blood Bitters is splendid for purifying the blood, clearing the skin, restoring sound digestion. All druggists sell it. Price, 1.25.

The drive to secure \$12,000 for the Red Cross which will start in Dover Sunday, promises to meet with the usual success of all war drives in Dover. The drive will start with a big parade Sunday evening, followed by a mass meeting in the Dover opera house. At a recent meeting of this committee, Mrs. Charles C. Goss was re-elected secretary. The committee in charge of the rally Sunday night consists of Dr. Hek Ford Nason, chairman; Dr. L. W. Mander, George T. Hughes and Miss Boomer. The committee to select the team captains is Miss Alice Clark, chairman; Mrs. Harold Brown, Moses J. Desautels, E. O. Tanguay, Miss Grace Haskell, Mrs. Jos. Walker, Lee; Mrs. Fred Pennell, Natchez; and Mrs. G. B. Haley, Barrington. Harold W. Brown was chosen to select a list of speakers who will deliver four-minute talks at the theatres. The committee on publicity is made up of James P. Dawson and Harry C. Glidden.

Mrs. Thomas McClinton, a former resident of this city, died at Lawrence, Mass., Tuesday. She formerly resided at the South End, and moved to Lawrence about five years ago. She is survived by her husband, two sons, George T. McClinton and Thomas B. McClinton, one daughter, Miss Floy B. McClinton and one sister, Mrs. Frank Hurvey. The body will be brought to this city today for burial in Pine Hill cemetery.

Credits which are coming to Dover from subscriptions entered at various New England banks have brought the total subscription to the third Liberty loan over \$50,000 for this city.

A committee from the Odd Fellows Building association has filed a request for a granite sidewalk in front of the Odd Fellows' block on Washington street. The present walk was badly damaged by a cave-in caused by a broken water main last winter.

Leon LaForte died at his home on the Littleworth road Tuesday night, aged 70 years, 9 months. He has been a resident of Dover for the past six years, coming here from Manchester. He was a native of Canada. Mr. LaForte is survived by two sons, Joseph of Manchester, and John, a well-known photographer of this city.

A drive is now on for recruits for Company D, N. H. State Quila, in this city. Why not join?

At a meeting of Division 2, A. O. U. it was decided to hold memorial exercises in St. Mary's cemetery Memorial Sunday when graves will be decorated.

City garden lots have been awarded by City Gardener Otto C. Davis, but there are more applicants this season than there is land and an effort will be made to secure additional land.

The three Odd Fellows lodges of this city have decided to participate in the Memorial day exercises and will appear in the parade. Each lodge has appointed a committee in regard to the matter.

The Twin State Gas and Electric company has plans for the construction of a two story building on Wall street for a sub station and in it there will also be a repair shop.

Rev. S. Golden Zwickler is spending a few days in Hampton, the guest of Rev. Frank Long.

William T. Fisher has gone to Manchester to fill a position as an operator of a steam roller in state highway construction.

Alfred Katherine McDonald has returned from a vacation spent in Quebec.

At the last Food Demonstration held on May 6th, the subject of Child Feeding was graphically brought before the women of Rye by a little play in which Miss Emerson tried to show the difference between right and wrong feeding of little children. It should be a matter of common knowledge that fried foods, rich pastry, tea and coffee are not food for children, but it is a surprising fact that dangerous ignorance and thoughtlessness exists among otherwise intelligent people, regarding the kind of nourishment their children are receiving.

Because of the many readjustments of living conditions in these days of stress, the welfare of the child is in constant danger of being overlooked, and the Women's Committee of National Defense is undertaking the great and far-reaching work of protecting the lives of these future citizens against unwise legislation which reacts upon their home conditions, and against any relaxation of the existing laws against child labor. More important still is the constructive work of educating those who care for young children, and the first lesson to learn in this greatest of all professions is the A. B. C. of child nutrition. The leaflet on Child Feeding which has been distributed among the women of Rye should be carefully studied and preserved for reference, as it is the basis of further demonstrations along this line. The date of the next lecture is set for the afternoon of June 5th at the Wedgewood school.

Women loves a clear, rosy complexion. Burdock Blood Bitters is splendid for purifying the blood, clearing the skin, restoring sound digestion. All druggists sell it. Price, 1.25.

The drive to secure \$12,000 for the Red Cross which will start in Dover Sunday, promises to meet with the usual success of all war drives in Dover. The drive will start with a big parade Sunday evening, followed by a mass meeting in the Dover opera house. At a recent meeting of this committee, Mrs. Charles C. Goss was re-elected secretary. The committee in charge of the rally Sunday night consists of Dr. Hek Ford Nason, chairman; Dr. L. W. Mander, George T. Hughes and Miss Boomer. The committee to select the team captains is Miss Alice Clark, chairman; Mrs. Harold Brown, Moses J. Desautels, E. O. Tanguay, Miss Grace Haskell, Mrs. Jos. Walker, Lee; Mrs. Fred Pennell, Natchez; and Mrs. G. B. Haley, Barrington. Harold W. Brown was chosen to select a list of speakers who will deliver four-minute talks at the theatres. The committee on publicity is made up of James P. Dawson and Harry C. Glidden.

IN ACCORDANCE

with our well-established custom of giving the people the most for their money, we are going to stage another big sale. The reasons for this sale are: First, we have the goods to sell; second, we know they are needed at this time; third, the prices are the fairest possible, in keeping with the "savings" times.

Beginning this next Saturday this store offers the following articles as the main features of its

Seven-Day Mattress Sale

No. 1 Soft Top, \$4.65; extra grade \$5.30
Special Feature—Full size mattress, well made for comfort and durability, \$8.50 value, for

FORD READY TO BUILD SUB. CHASERS

(By Associated Press)

Detroit, May 16.—Quantity production is to be the watchword of the great Ford shipbuilding yard which is being erected here for the construction of the United States navy frigates, the little vessels which, it is hoped, will help rid the seas of German U-boats.

The assembling plant has been greatly elaborated and will be applied to the building of the frigates. The raw material will enter one end of the plant to emerge at the other end a completed fighting craft. Each of the little vessels will be passed along by powerful machinery from one group of workmen to another and, as it passes, each group will add something to the boat.

When the last rivet has been driven in the steel hull, the boat will be picked up bodily by a powerful hydraulic lift and deposited farther down the ways where skilled workmen will install the motor equipment.

Three ways have been constructed, each to hold seven of the submarine chasers. It is generally understood that the plant will be able to put into the water one completed frigate a day and some estimates have placed the number as high as three for each twenty-four hours.

There will be no champagne celebrations nor elaborate launching ceremonies. No efforts are being made to give the boats any touch of artificial beauty, the sole effort being to turn out with as great speed as possible an efficient weapon against German ruthlessness on the seas. Government recovery shrouds the major details of construction.

"If these boats will hasten the end of the frightful carnage and bring a lasting peace, there will be no occasion to worry over the cost," said Henry Ford in discussing the project. "This is your war and my war, and although we did not make it, we must see it through to a successful conclusion."

Sixty days ago the land on which the plant is being erected was a desolate marsh, a vast acreage of mud through which wandered aimlessly a sluggish river. Now it is a network of railroad tracks with locomotives running between great buildings of steel, life and glass.

What engineers here say is one of the largest buildings in the world will be used to house at one time a score of the little vessels. It is 1,700 feet long, 300 feet wide. The building where the boats are to be assembled is fully half a mile from the Rouge river. The launching basin adjoins this building and thence a channel is being excavated to the river.

U. S. AND JAPAN IN AGREEMENT

(By Associated Press)

Tokio, May 16.—Submitting written answers to interpellations in the House of Representatives, just before the recent adjournment of that body, Viscount Motono, then Japan's foreign minister, but who afterward resigned, said that the Japanese Government had no intention of repeating the "gentlemen's agreement" between the United States and Japan at the present time.

The interpellator, Mr. Hayami, thought that the time had come to send more Japanese laborers to the United States because the war had increased demand of labor in America. He believed that the time had ar-

ried to solve the immigration question and thought the "gentlemen's agreement" should be abolished.

Mr. Hayami continued by recommending that the government open the way for a supply of Japanese labor to the United States. To this Viscount Motono replied that the government did not think the present circumstances allowed of such an arrangement.

Commenting on Mr. Hayami's desire that the general granting of passports to Japanese emigrants be expedited and simplified in procedure, Viscount Motono answered that the government would try to meet the interpellator's wishes as far as possible. He added that the government will give due consideration to the matter of giving preparatory education to emigrants.

NO MAYFLOWERS IN ENGLAND

(By Associated Press)

London, May 15.—If there are in England any descendants of the little band of Mayflower who sailed in the Mayflower 225 years ago, they are difficult to discover. An American woman living in London has been trying to find them, and with that object she inserted advertisements asking any "Mayflowers" now in London to meet her at a certain hour.

The appointed hour came, and the American woman waited. A moving picture photographer, several newspaper photographers and a dozen reporters arrived and were mistakenly and enthusiastically greeted as Mayflowers. There was an air of eager expectancy and suppressed excitement. Everybody waited for forty-five minutes, but not a single "Mayflower" appeared. But there must be some Mayflowers in London," said the American woman to the reporters. "I can't be the only one." She looked again at the door, but there was no sound of footsteps, and the meeting adjourned.

"But there must be some Mayflowers in London," said the American woman to the reporters. "I can't be the only one." She looked again at the door, but there was no sound of footsteps, and the meeting adjourned.

MUCK NAMED IN GERMAN PLOT

(By Associated Press)

Boston, May 16.—Dr. Karl Muck, the recently deposed leader of the Boston Symphony orchestra, was today brought into the alleged plot for a German uprising in the United States.

Ivan Morozoff, vice-president of the American-Russian Asiatic Corporation in New York, testified that in company with a man named Muck, "a second German officer and the notorious Capt. Hans Fautschner, he had dinner and then went to a warehouse where he was shown many boxes containing 100,000 rifles."

At the Federal building today it was stated that the "man named Muck" referred to is none other than Dr. Muck whose refusal to allow his orchestra to play the "Star Spangled Banner" started a controversy and was the ostensible reason for his being interned. His internment exposed an immense conspiracy in Boston.

LOW PRICES FOR HOUSE LOTS

An auction held on Wednesday of house lots in Prospect Park and other undeveloped places in Middle Road, did not bring good prices for the lots. Some sold as low as \$3 and the highest was \$21.

DANGER OF A GERMAN PEACE DRIVE

(By Associated Press)

Philadelphia, May 16.—Probability and grave danger of another German peace drive were emphasized by President A. Lawrence Lowell, of Harvard University, in his address today at the opening session of the Convention of the League to Enforce Peace. He said in part:

"It is not at all improbable that within a few weeks Germany may propose to make peace on terms that appear on their face reasonable and moderate. She may offer to retire from Belgium and France and even to contribute toward the damage suffered, to cede Alsace and Lorraine or leave their future to be decided by plebiscite, to give the Trentino and Trieste to Italy, to promise some kind of autonomy to the various races in Central and Eastern Europe, and to agree that the barbarities she has practised shall not again be permitted in war."

"Such an offer might well beguile the Allies into a delusive peace. The peace would be delusive for, unless the principle of militarism is destroyed, the promises would be kept no better than those broken in the past. Autonomy of other races would mean their organization for the strengthening of Germany; until she had control of the resources of a population of 200,000,000 for her next war. Such a settlement would be a mere truce pending a strife more fierce and bitter."

"If the upshot of this war is to conclude the whole world will be preparing for another. During any temporary truce men of violence in all countries will devote much of their thought to making engines more destructive and more deadly for the next struggle which will be well nigh a war of extermination."

"Civilization as we know it has reached a point where it must preclude war or perish by war, and war can be precluded only by a conquest of the world by a single power, or by an organization of many nations to prevent its recurrence."

"The principle of predatory militarism cannot be done away unless mankind has the intelligence, the imagination and the determination so to organize itself that justice shall take the place of violence, and that the predatory state shall be restrained, by force if need be, from a wanton resort to arms. No one nation can do this, nor can it be done if the United States stands aloof. The time has come to take part in a league of nations to maintain an enduring peace here and elsewhere. We must finish the work we have begun until the principle for which we fight stands victorious and unquestioned; and then we must build a structure that, so far as human wisdom can reach, will banish the scourge of war among men."

BIG SUM FOR LOAN

Washington, May 16.—Food Administrator today asked the House appropriation for \$7,000,000 for office and other expenses.

MINES NEED TIMBERS

(By Associated Press)

Hazleton, Pa., May 16.—Because the operators of anthracite coal mines

need timber, an epidemic has been given to the reforestation of the mountains and hills in the mining region. The scarcity of lumber for mine pillars and other mine uses has led to the erection of a forestry department by several of the large mining companies, one of which has just reforested Bear Creek watershed with 8,000 white pine and 5,000 Norway spruce trees. Thirty thousand more trees are in process of cultivation at Hazleton, Pa., in the Panther Creek Valley.

If timber is ready to cut in the vicinity of the mines, the troublesome waits and long hauls will be eliminated. More timberland in the anthracite region would stop floods, add to the water supply, reduce the drought periods and enable the anthracite industry to add to its output. This would be done through better protection thus afforded to the stripping areas in mines which would add to the speeding-up ability. Many thousands of acres are available about the mines for reforestation.

GERMANY AND AUSTRIA IN NEW ALLIANCE

(By Associated Press)

Washington, May 15.—According to dispatches from Swiss newspapers the Berlin papers have reported a new treaty of alliance with Austria-Hungary as a result of the recent conference between the Kaiser and Emperor Charles. The conference contemplated during the period of 25 years and during the duration of the alliance calls for a closer military alliance and aid. While the treaty has not been signed it is known that the basic facts are agreed upon and the details are being worked out.

REDUCE THE PRICE WOULD HELP SOME

New York, May 14.—A special committee has been appointed by the president of the New York Produce exchange at the request of the Federal Grain corporation to devise means for relieving serious losses which the trade faces because of an over accumulation in eastern markets of corn meal, rye flour and barley flour.

Those wishing to dispose of any of these products have been requested to communicate with the committee, giving quantities, grade and brand cost and price desired. H. T. Greenback of the produce exchange is chairman.

LUCKY BOMBS

London, May 16.—Surrender of a German force of 3,000 men in East Africa was due to the chance dropping of a number of bombs by a British airplane, according to a report from Capetown, which says:

"An officer of the Flying Corps was out on reconnaissance in the region of the Itomva River, but found nothing to bomb. Being forced to discharge his cargo of bombs to lighten his machine for the homeward trip, he chose a quiet spot and dropped them all, causing, of course, considerable noise."

"The German General, Tafel, was at the time marching to join his chief, Von Lettow, but news of the explosion was reported to him, and he, thinking a large force of the enemy must be somewhere in the district, diverted his line of march and before long bumped into a British force."

"Ultimately his whole force, 3,000 strong, surrendered."

AIR ROUTE NEW YORK TO PHILADELPHIA

(By Associated Press)

New York, May 15.—Making the flight from Philadelphia to New York in one hour, 13 min., Homer Culver landed at Belmont Park at 1:35 this afternoon carrying mail between the two cities.

Lieut. George Boyle carrying mail from Washington to Philadelphia was forced to descend owing to motor trouble. They can carry between 300 and 400, and they are to be tried out again tomorrow.

RUSSIANS MAKING UP

(By Associated Press)

Moscow, Friday, May 10.—Rostov-on-Don, the largest city in the Don Cossack territory, was recaptured today by the Russian soviet troops, who drove out the Germans. The Germans who had held Rostov for only a day, are retreating.

The armistice on the Kursk front has been extended to the Voronezh and Don districts. Martial law has been declared and the soviet troops have been ordered to disarm the bands invading Russian territory despite the armistice.

CAUCASUS GOVERNMENT PROPOSES PEACE PARLEYS

Moscow, Friday, May 10.—The Caucasus government has proposed peace negotiations. Foreign Minister Tchitcher is informed by the Turkish government, Turkey, acting with Germany, has insisted that the Caucasus Government send its delegates to Batoum.

DENMARK LOSING ITS HOGS

(By Associated Press)

Copenhagen, May 15.—Denmark's stock of swine, which amounted to about 2,500,000 head at the outbreak of the war, has now dropped to 400,000, according to latest estimates. For their serious needs on this stock are being compelled by the impossibility of importing fodder, principally corn. In 1913 Denmark's total exports of pork were nearly 250,000 tons, of which just under one half went to England. All exports have now been stopped, and the outlook for supplying the domestic consumption's re-

SIX FISHERMEN LOST AT SEA

(By Associated Press)

Vinal Haven, May 15.—Six Gloucester fishermen were lost when the schooner Benjamin Smith, was cut down by a Norwegian steamship, Captain Norman Ross said that the steamer came out of a thick fog bank and cut him down before he could avoid the collision.

Portsmouth, N. H., Thursday, May 16, 1918.

The amount of work done at the hospital in April was the largest for any month in the history of the institution. The demands upon the hospital are necessarily increased by the growing population and the nature of the work in which so many men are engaged, and the people of the city will be remiss if they fail to keep the institution up to the requirements in every particular.

How much inconvenience may be caused by the departure of laborers for places where they can have their beer remains to be seen. The fact that a considerable number of men have already left Portsmouth for this reason will probably be seized upon by the prohibitionists as a powerful argument for nationwide prohibition.

German newspapers are beginning to recognize that America in the war means something. One of them says: "We must hurry to obtain a solid victory by arms before the full American forces arrive." And by the same token America should hurry her forces over before that victory is obtained. And she will.

Food Administrator Hoover says if it had not been for the action of the government flour would now be selling at from \$30 to \$50 a barrel. A little boy once remarked that pins had saved the lives of thousands of people, and when asked how, he answered: "By their not swallowing them!"

The housing of some of the workmen at the Newington shipyard under canvas during the summer is by no means a bad scheme. Camp life under right conditions in warm weather is not to be sneezed at and the men under the tents should have a comfortable season.

The Portsmouth Red Cross is not to take a vacation because there is a lull in the demand for winery goods for the soldiers. There is another winter coming and the women will keep right on with their knitting. This is the right spirit, the spirit that helps to win wars.

The French are profuse in their praise of the American soldiers, but criticize their cooking. Nevertheless that same cooking keeps the troops from this side in good working condition, according to all reports.

Young men for war and old men for counsel, says the Good Book, a sentiment that evidently finds an echo in Great Britain, in whose House of Commons are fifty members more than 70 years old, four who are over 80, and one who has reached the age of 96.

A rumor comes from Michigan that Henry Ford would like a seat in the United States Senate as a stepping-stone to the presidency. If there is any foundation for this suspicion it proves that Mr. Ford is a much better business man than politician.

There are some who are looking for a big German "peace offensive." Well, all the peace moves the Germans have made thus far have been offensive to intelligent people and the nations of the world.

The Massachusetts Legislature has decided not to change the dog law this year, and what few sheep men there are left in the Bay State will have to do the best they can under the old conditions.

It is predicted that milk in Boston may soon be costing consumers 18 cents a quart. Would that mean more for the farmers, or an increase of wages and salaries in Boston?

Why the anxiety of the United States Senate to shove the price of wheat from \$2.20 to \$2.50 a bushel? Are there votes in this thing in the wheat growing states?

America's "possessions" are coming forward as well as those of Great Britain. Porto Rico is now to put a division of 12,500 under training for service "over there."

What a volume of mail will be received from the front when those "Mothers of May" letters from the officers and soldiers begin to come along!

If war gardening is properly attended to there will be more onion breaths than whiskey breaths in New Hampshire this year.

And already preparations are under way for the fourth Liberty Loan!

EDITORIAL COMMENT

OUT OF THE FRYING PAN

(From the Springfield Republican)
It will be perfectly easy to believe that the American lines hold solidly; now that it is known that one woman is trying the boys of doughnuts a day for the boys "over there."

WELL, THERE'S BAKER

(From the New York World)
M. Loyalson's plan to have President Wilson visit France, Great Britain and Italy while the war is in progress is sensational indeed, but who serve our constructive critics as a punching-bag in his absence?

THE GAMBLING SPIRIT

(From the New York Herald)
What is the relationship between the further decline in the new or the old Liberty Bonds and the boom in stocks? There always seems to be plenty of people willing to take a loss on a sure thing for a chance of profit on a speculation.

SEQUITUR

(From the Providence Journal)
According to a plan of a proposed college of political science to be erected in New York, acclaimed as a "fascinating educational experiment," the faculty will elect the board of trustees and also, will appoint and dismiss its own members. Why not do so further and fascinate the undergraduates by giving them the privilege of electing the faculty?

MEAT TO ONE, POISON TO ANOTHER

(From the Buffalo Express)
There continues to be talk at Washington that the way a win war is to wear your last summer's straw hat and to get your shoes halfoiled. But how are the dealers in hats and shoes and such things to live if the practice becomes general?

NO LOAFING IN NEW YORK

(From the New York Herald)
Following in the footsteps of New Jersey, this State has now enacted a law to drive out all idle persons—not merely "loafers" in the ordinary sense of the term but even well-to-do persons, unless they get busy.

The bill approved after proclamation by the governor will require all able-bodied men from eighteen to fifty to engage in some useful occupation until the war. Those who do not obey this mandate are liable to be fined one hundred dollars or spend three months in jail.

One can imagine the dismay of loafers in the streets, playgrounds or saloons and their unanimous chorus of "War is hell!"

WHY FRANCE FIGHTS

(M. C. Journelle in Atlantic Monthly)
In thinking of the fate of the hundreds of thousands of French women and children who have been living under German rule for more than three years of the murders, rapes, tortures, brutalities and insults to which they have been subjected, one can catch something of the spirit that must animate the French soldiers. One gets a glimpse of the plans they have made for that day when they reach German territory, and can imagine that if Lord Lansdown should appear before a regiment that was recruited from one of the occupied districts he would not live to complete his second sentence.

The war has entered into the heart of France and Belgium as nowhere else. Only there has it come home in the real sense of the word.

AFTER AEROPLANES, NOT BORGUM

(From the Baltimore News)
Whether Mr. Borgum is a crook or not is a vital to success on the front and in the life of thousands of men in France. Aeroplane production is our men depend upon the energy put into performance of the aviation program. We all want to believe that Borgum is a crook, that his story is fabrication from beginning to end. We would be only too glad to have that proved even though the inevitable corollary were that the President must be an obviously easy mark for the designing. But there is still chance, too serious for neglect of it, that Borgum is either honest or a crook who was turning bad conditions to his own venal purposes, but had the evidence that conditions were actually bad. The President's letter to him definitely establishes that chance Borgum himself is a side issue. We are after aeroplanes.

THE COST OF STRIKES

From American Industry in War Time
During the first year of our participation in the war, nearly ten million working days were lost on account of strikes. This amount decreased production, lost power and limited efficiency, even in industries where there were no strikes. It is the patriotic duty of the period of the war its right duty of organized labor to abandon to strike. It is the paramount duty of the Government to impose upon organized labor during the period of the war a rule which will prevent strikes.

It is also the duty of the Government and the employer to see that all grievances of labor, organized or unorganized, are listened to with attention and satisfied wherever possible, providing always that labor abandons the destructive weapon of strike. This country is in war to win and it will require our full energy in order to bring about a speedy victory and to preserve the liberties of ourselves and our allies. How then can any man or any organization, plead justification, if by his actions our work is limited, our energy minimized and our force reduced almost to ineffectiveness?

NAVY YARD NOTES

Will Give Ships Back

Many commanders of yard vessels are not required for the army and navy, it was reported yesterday, and will be turned back to their owners to be operated for government account. An example is the Luckenbach fleet of steamships, taken over several months ago for overseas service and now being operated by the company in interest of the government.

Some Busy Day

The yard dispensary had a record day on Wednesday in the treatment of 33 minor cases of injuries, etc.

Nearly Ready For Them

The medical force attached to the station dispensary are expected to occupy the new additional quarters on or about June 1.

Officers Team Wins

A team made up of yard officers lined up against what is known as the ships company nine from the Naval Prison on the yard diamond on Wednesday afternoon. The prison men met defeat by a score of 12 to 8.

Bridge Party Friday

A bridge party will be given on Friday afternoon by Mrs. Austin H. McCormick, wife of Lieut. McCormick in honor of her mother, Mrs. James H. Honlon of Portland who is her guest. The party will take place at the quarters of Lieut. Commander Thomas M. Osborne.

Expressions of Sorrow

The death of Arthur M. DeBottle, the efficient clerk in the yard time office, is the cause of much sorrow and expressions of grief among the men in every department of the reservation where he was known. He was a most conscientious employee of the government and very much esteemed by his associates. His death is a distinct loss to the musical circles of Portsmouth in which he has been active since he became a resident of this city.

Sanford Boy Dead at Newport.
Harry Porter, of Sanford, Me., who joined the navy about three weeks ago is dead at the Newport training station. Porter was 22 years old and was employed as a clerk in a pharmacy.

PERSONALS

John Murphy of Revere, Mass., passed today in this city.

Mrs. Gay Caswell and Mrs. Morton Drake of Hyde passed today in Boston.

Mr. and Mrs. Harold E. Walker are visiting his parents in Haverhill, Mass.

A. D. Wentworth of Danielson, Conn., formerly of this city, is passing a few days in town.

Mrs. True M. Ball who has passed the winter in Boston, re-opened her residence on Court street this week.

Assistant Keeper Kelley of Isle of Wight is in this city today for supplies, accompanied by Mrs. Kelley, who will make a short visit here.

WANTED—A girl for general housework. Apply to Mrs. Edith Haisdel, 11 Garrett Court.

TO LET—Three rooms for light housekeeping; no children. Apply 50 Brewster street.

N. H. MUST FURNISH ARMY SIXTY DOCTORS

Dr. Towle of This City Retires as President of N. H. Medical Society.

Concord, May 16.—New Hampshire must furnish 60 doctors for the army and 10 for the navy before July 1, if the doctors of the state are to do their duty, Maj. F. H. Simpson, secretary of the medical section of the National Council of Defense, told the members of the New Hampshire Medical Society, at the patriotic meeting in Memorial parish house Wednesday night. Moreover, Major Simpson said, the state has only started them, as there will be called after call before the year is out. The major said that before the end of the year there will be 3,000,000 American soldiers under arms, which means that 30,000 doctors will be needed to take care of the men. Major Simpson declared that 20,000 doctors are needed to take care of the men now under arms. His classification of New Hampshire's medical men was not flattering, the state ranking 46th among the states of the union in percentage of doctors in the service. He had answers to all of the stock arguments of those loath to enter the service for one reason or another. He said one of the excuses heard most frequently from doctors is that if they could go to France immediately they would volunteer. To those holding that feeling, Major Simpson declared that if they would wire Surgeon General Gorgas to that effect, he felt certain that shortly they would receive instructions to report to get ready to go overseas right away.

It is expected there will be a decided speeding up of enlistments of doctors, as a result of the meeting, as in addition to Major Simpson, after long talks were given along the same lines by Dr. John M. Gile, M. R. C. of Hanover, Capt. Ernest L. Bell of Plymouth and Capt. W. Irving Blanchard, the two latter in black now, and looking better than they ever did in civilian attire. There was a liberal sprinkling of other New Hampshire doctors in black, who were able to obtain furloughs to come on for the meeting and they came in for much attention.

President Fred H. Towle of Portsmouth presided at the meeting Wednesday night, as he did at the sessions during the day. The house of delegates met Wednesday morning at 11 o'clock and appointed a nominating committee, which brought in a list of officers elected at another meeting after the afternoon general meeting. Dr. Charles P. Bancroft of Concord was elected president and Dr. A. W. Shea of Nashua, vice president. The other officers elected included Dr. Frederick von Tobel of Lebanon, counselor for Grafton county; Dr. G. S. Saltmarsh of Lakeport, counselor for Belknap county; Dr. E. B. Graves of Penacook, neurologist; Dr. John M. Gile of Hanover, anniversary chairman and Dr. Herbert L. Smith of Nashua, trustee.

At the afternoon session, the invocation was offered by Rev. H. H. Niles of Concord and there were addresses by President Towle, Dr. J. Bentley Squier of New York, Dr. John A. Turnbull of the Massachusetts General hospital, Dr. Arthur C. Heffenger of Portsmouth, Dr. J. Eddy Blake of Lisbon and Dr. Durt W. Carr of Pittsfield. The discussions were taken part in by Dr. Gile of Hanover, Herbert L. Smith, A. W. Shea of Nashua, Eugene B. Eastman of Portsmouth, George W. McGregor of Littleton, Fred E. Clow of Wolfeboro, Frank H. Sargent of Pittsfield and Roscoe Hanks of Epsom.

YORK COUNTY PROBATE COURT

The York County probate court held its session at Alfred on Wednesday in which a small amount of business was transacted.

The will of Frank Haller Sawyer, late of Biddeford, was presented for

NOTICE TO DOG OWNERS

Section 1. Every owner or keeper of a dog three months old or over shall annually, on or before the thirtieth day of April, cause it to be registered, numbered, described, and licensed for one year from the first day of the ensuing May, in the office of the clerk of the city or town wherein said dog is kept, and shall cause it to wear around its neck a collar distinctly marked with its owner's name and its registered number.

Section 2. Whoever keeps a dog contrary to the provisions of this chapter shall forfeit fifteen dollars, five dollars of which shall be paid to the complainant, and ten dollars to the treasurer of the town in which the dog is kept.

Laws of 1891, Chapter 60.
Office hours—9 to 12, 2 to 5.

probate. Mr. Sawyer devised and bequeathed his entire estate, real, personal and mixed, to his wife, Julia Marsh Sawyer, to her, her heirs and assigns forever, the will being very brief and disposing of the estate absolutely, precisely as Mr. Sawyer's father, the late Dr. James Sawyer, devised and bequeathed it to his son.

A petition for administration was presented in the estate of Frank H. Hays, late of Biddeford. The estate is estimated at \$10,000 real and \$1,000 personal.

Petitions for administration were presented in the following estates: Abbie S. Luzzell, late of York, \$2,000 real; Percy Thynge, late of Waterbury, \$500 real, \$500 personal.

The will of Rose Beaudoin, late of Biddeford, was presented for notice. The estate is estimated at \$500, real estate. To her father, Henri Jaz, she gives all her clothes and house furnishings. The real, residue, remainder to husband, Arthur Beaudoin.

Warrant and inventory was filed in estate of Ella P. Farwell, late of York, \$5,000 real; Georgiana Haisdel, late of York, \$7,767.62.

Accounts Allowed—In estates of Jean Perron, Biddeford; Ellen Lowell, Sanford; Lillian L. Littlefield, Hollis; Henrie Howard, Boston; Clara E. Foss, Huntington; Mary A. Newell, York; Jesse H. Newell, Dayton.

Wills Allowed—Estate of Hannah H. Garry, Sanford; Frances E. Haisdel, late of York.

Willior G. Miller was appointed guardian of Harry E. Miller of Acton.

Administration was granted in the estate of James H. Whitehead, late of Saco; also in estate of Florence B. Pugsley, late of Cornish, estimate of estate, \$1,000 personal.

The inheritance tax was determined in the following estates: Annie S. Bacon, late of Lowell, Mass., was determined at \$11.71; Jesse H. Newell, late of Dayton, \$107.51.

TO LET—Two furnished rooms for light housekeeping. All modern improvements; adults only; two minutes' walk from city hall. Phone 655W. h m16, 21

MUST HAVE RECRUITS FOR STATE GUARDS

Many Men Needed to Bring
Co. D of This City Up to
Its Full Strength.

These are busy times and it is quite easy to overlook some things necessary for the prosecution of the war.

When it is understood—that it is realized that a chain is no stronger than its weakest link—we won't neglect to make that link as strong as possible; to so neglect would be hardly less than criminal, inasmuch as any military unit that has not its complement is inimical to public safety and impairs the efficiency of the organization of which it is a part. Co. "D," N. H. S. G., is a part of the first battalion, and with luck, the desired quota to complete the full battalion strength.

We have all devoted ourselves to the GREAT CAUSE—there are no exceptions. We are at grips with an enemy that demands your money and your life, not merely your money or your life like ordinary highway robbers. Whose idea of "freedom of the seas" seems to be freedom for wreckage and leeches only. Whose accomplishment of "peace without victory" hundreds of thousands of massacred Armenians bear mute witness to. Therefore let every fairly-able man from 18 to 40 ask himself, "Am I doing all I should?"

While even these anxious days we want to look to the bright side, there are certain flippancy expressions which might be appropriate generally in normal times, but which hardly find a place in time of world stress. Take for example the common saying "I should worry." "I should worry about building more ships, we may not need them anyway." "I should worry about buying Liberty bonds, let the rich do it." "I should worry about the boats bombarding our coast. Germany is 3000 miles away." "I should worry about the State Guard, let the state draft men for it." The "I should worry" habit is quite as capable of helping the Kaiser as any active enemy ally, by inducing a feeling of indifference. The fact that on ocean lies between us and the firing line shouldn't cause us to relax our energies in the slightest degree. Above all, don't under-

estimate the importance of preparedness at home. And we must keep up the fight all along the line, here and abroad, until we have peace, remembering that the only peace worth having is the peace of victory.

All fairly-able-bodied men between the ages of 18 and 40 inclusive, can help do their bit in winning this peace by becoming members of the State Guard. Recruiting office, 18 Market Square, Boston, from 7 to 9 p. m.

HUGHES TO TAKE PART IN AIRCRAFT PROBE

Washington, May 15.—President Wilson has asked Charles E. Hughes to assist Attorney General Gregory in investigating the aircraft situation. Mr. Hughes has replied that he will be glad to assist. Correspondence between the President and Mr. Hughes was made public here today. The President said the importance of the aviation service warranted an investigation with as little delay as possible.

PERSHING TO HAVE GREATER COMMAND

(By Associated Press)
Washington, May 15.—General Pershing possibly may soon be in command of British and French troops on the battle front, along with the Americans. This exemplifies the unity of command for when the Americans are in majority of any brigade they come under the command of General Pershing.

CARD OF THANKS.

We, the undersigned wish to express our appreciation to those who have shown us so much sympathy and kindness in our recent bereavement and also during the years of suffering and confinement of our dear departed. Especially does our gratitude go out to Dr. Shapleigh for his untiring attention and devotion, and to Mr. and Mrs. Samuel Wendell and Mr. J. Howard Hubbard, also for the most beautiful floral tributes.

Mrs. George N. Crawford,
Mr. and Mrs. Richard D. Fletcher,
Mr. and Mrs. Charles L. Philbrick,
Jesse L. Philbrick.

RECEPTION IS TENDERED, NEW PASTOR

Rev. and Mrs. Rollin S. Tuttle
Given Welcome by Meth-
odist Parishioners.

The Methodist parish tendered a reception to its new pastor, Rev. Rollin S. Tuttle and wife last evening at the Methodist vestry and a large number were present to extend good wishes on this occasion.

The vestry was prettily adorned with American flags and bunting. On the windows and piano were bouquets of narcissus and ferns.

The receiving party stood in the parlor, which was beautified with a large American flag and a bouquet of long-stemmed ferns, the latter being on the centre table.

Rev. and Mrs. Tuttle were assisted in receiving by Daniel McIntire, the oldest member of the official board and parish, and Mrs. McIntire. The ushers were Archie Marshall, George Gove, Fred Brille and Fred Clark.

Miss Mary Miller presided at the piano during the receiving hours, which were from 8 to 10 o'clock.

James T. Davis, superintendent of the Sunday school, gave the address of welcome to the pastor and wife and read letters of regret at inability to be present from District Superintendent Ross Hicks of Dover, who was away attending a conference.

Nelson Kellogg, rector of St. John's church, who is absent from the city for a few days, from Rev. Lucius H. Hayer, pastor of the North church, who is attending a church conference in Manchester and Rev. William P. Stanley, pastor of the Middle street Baptist church, who is attending a church conference in Atlantic City.

The letters expressed regret that the pastors could not be present and extend best wishes to Rev. Mr. Tuttle in his work as pastor of the Methodist parish.

The pastor ably responded to these expressions of good will from his parish and fellow clergy. Mrs. Tuttle was presented with a bouquet of carnations from the parish.

During the evening refreshments of ice cream and fancy wafers were served. The table appointments were ladylike, bouquets of carnations and daisies with yellow shades adding to its attractiveness.

Mrs. James T. Davis and Mrs. Clarence A. Farnham presided at the tables. The serving was done by young Misses of the latter's Sunday school class.

The committee from the parish in general charge of the affair was Mrs. Inez McIntire, Mrs. Clara Brille, Mrs. Frank W. Knight, James T. Davis and Harry L. Hilton.

Rev. Mr. Tuttle began his pastorate in this city on April 12, coming from Camp Devens, Ayer, Mass., where he has been for the past year, representing the Methodist church within the cantonment. While there he came in intimate touch with enlisted men in the Y. M. C. A. buildings, in the barracks and base hospitals and is well acquainted with their life and work.

Because of his experience and the fact that there are army and navy training camps in this vicinity Mr. Tuttle is not only deeply interested in the welfare of his parish, but lets no opportunity go by to give spiritual aid to men in the service, and a good number are present at the Sunday services and at prayer meetings. Several of these men in the navy blue were baptized in the auditorium on a recent evening and became members of the Methodist church.

road mail clerk from this city to Concord, who during his residence in this city made many friends. He passed away on Monday at the home of his sister. He leaves a wife, mother and father at West Swanton, N. H., from where the funeral will be held, and a sister and a brother.

Mr. Arthur M. Doolittle

Mr. Arthur M. Doolittle, well known resident of this city passed away at his home on Broad street shortly after nine o'clock Wednesday evening after an illness of two weeks with typhoid fever. Mr. Doolittle lost his youngest son some weeks ago by the same disease and soon after his death he was taken ill and gradually grew worse.

He was 49 years of age and the son of Joseph S. and the late Amanda Beebe Doolittle. He was for many years employed in a clerical position at the Portsmouth Navy Yard.

He was an accomplished musician and for years organist at the North church and before that at the Unitarian church. He leaves besides his wife an aged father, one daughter, two sons and a brother. He was a member of St. Andrews Lodge, A. F. A. M.

Fred A. Bruce.

The death of Fred A. Bruce of Revere, Mass., eldest son of the late Lewis Bruce of this city, occurred this morning after an illness of six weeks. Mr. Bruce was a carpenter and builder, but of late has been employed at the Christchurch navy yard. The home of his boyhood was in this city. His illness was due to blood poisoning which has confined him in his bed for some weeks, but yesterday morning he seemed so much improved that he was able to walk about the house. In the afternoon he was stricken with a shock which rendered him unconscious until the end. He is survived by a wife and two daughters. Mrs. John Murphy of Lynn, Mass., and Miss Carrie Bruce of Revere; a son, Thomas Bruce, is enlisted in the Naval Reserves and is duty at New London, Conn. The remains will be brought to this city on Saturday for interment in the family lot.

Capt. Luther Dame.

Capt. Luther Dame, aged 92 years, first commander of Post 49, G. A. R., and its only surviving charter member, died Wednesday at his home, 73 Purchase street, Newburyport. He was born at Kittery. He took up his residence at Newburyport when a young man. When the war broke out in 1861 he was commissioned a captain of Co. C, 11th regiment, Mass. volunteer infantry, and served for four years.

After the war he was elected a member of the Newburyport high school faculty, resigning at the completion of 18 years of educational work to enter the real estate business. He served in both branches of the city council. He was elected as representative to the General Court in 1887, and was twice re-elected on the Republican ticket. He was elected state senator in 1891 and 1892. He leaves a widow, two sons and a daughter.

Doris M. Fay.

The many friends of Mr. Carlton E. and Mrs. Doris M. Fay will be pained to learn of the recent death of their only daughter, Doris M. Fay. She died at her home in Waverly, Mass. They lived in Portsmouth until she became two years old and then moved to Vermont until eighteen months ago when they moved to Massachusetts. She was eleven years of age and a very promising child. The flowers were many and beautiful. Services were conducted by Rev. Edwill.

DOVER HIGH GETS

ITS BUMPS FROM

THE LOCAL TEAM

Portsmouth High put Dover off the baseball map temporarily at Dover on Wednesday. In which nearly all the local players took part in the hottest test. The score explains just what kind of a game it was.

GERMANS HAVE RIFLES HIDDEN IN AMERICA

New York, May 15.—Plans had been made in 1914 for a revolution of Germans in the United States in case this country should be drawn into the European war, according to testimony today at the state attorney-general's investigation of reports of hidden munitions.

Ivan Norodny, vice-president of the Russian-American Ashland corporation who admitted he had sympathized with Russian revolutionists before the emperor was overthrown, attributed the revelation of plans for an uprising in the United States to Baron von Gersdorff, friend of the German crown prince and a former German agent in Mexico, who was interned after the United States entered the war.

At a dinner at a New York hotel in the fall of 1914, Norodny said, he met Baron Gersdorff, Capt. Hans Tauscher, former Krupp agent in the United States and another German whom he knew as Eugen or Muck and who was the manager of Mine, Gadaski, wife of Capt. Tauscher, Norodny quoted Baron Gersdorff as saying:

"The Schuetzenverein (German rifle clubs) have arms in this country and in case of trouble with the United States they will side with Germany. The rifles have come from Germany and in case of war the Germans here will assist the I. W. W. and the Socialists."

Both Baron Gersdorff and Tauscher told Norodny, the latter testified, that the attorney in Russia ought to be overthrown, and Baron Gersdorff offered to supply Norodny with arms free so that revolutionists in Russia could seize the government and make a separate peace with Germany. Norodny testified that he rejected this plan from patriotic motives.

Previous to this conversation, he said, he had been trying to buy rifles from Tauscher for the Russian army, but after being shown a quantity of arms in a New Jersey storehouse gave up the idea because he realized that he was dealing with an enemy of his country and the arms, if purchased, might be sent by the Germans on the way to Russia, in addition the Germans urged upon him that he was persona non grata with the Russian government. They did not seem anxious to continue negotiations unless for the purpose of fomenting a revolution.

The effects of Deputy Attorney-General Becker to learn the name of the owners of 1,000,000 Mauser rifles and 1,000,000 cartridges which various brokers had testified were offered for sale in New York by Gustav L. Lussing, a German-born American citizen, proved futile when Lussing took the stand. He denied the testimony of various witnesses that he had represented himself as the agent of the owners. Mr. Becker announced that he would be recalled to the stand at the resumption of the investigation May 22.

KITTERY.

Kittery, May 15.—The week of May 20-27 has been designated by the American Red Cross as the particular opportunity for the American people to help with the war by giving \$100,000,000 for the second war fund of the Red Cross. Every penny of this money will be used for war work. All the overhead expenses are paid from the membership fees. Every contribution to this work makes some soldier more efficient, shortens the war, and makes the hope of peace more certain. One of the surest ways to help Germany is to refuse to support the Red Cross. The allotment of the Kittery branch in this drive is \$1826.50. It is greatly to be hoped that Kittery has sufficient local interest and pride in the work of its local branch to bring this allotment up to \$3000. The Kittery branch will retain 25 per cent of its total contribution for the purchase of supplies. Therefore the usual monthly contribution for the Red Cross work will be omitted in June. All those who have given so generously to the work through the winter are asked to turn their June contribution into the war fund. A careful canvass of the town will be made during the week of May 20. Much money is coming into Kittery every week. Each person is urged to make some real sacrifice and get aside a generous sum for this war work.

The baseball team from Trip Academy went to York on Wednesday afternoon and played the York High, the local boys losing the game by a score of 13 to 10. Prof. L. Amourous and quite a number of pupils accompanied the boys. The trip was made in automobiles.

The annual convention of the W. C. T. U. will be held at Kennebunk on Tuesday, May 21.

Messrs. George D. Boulter and Anton H. Cole attended court at Alfred today.

Phisataph Chapter, No. 30, O. E. S. held a regular meeting on Wednesday evening, at which time there was an initiation.

A son was born Tuesday night to Mr. and Mrs. Cash of Love lane.

Master Robert Grant of Otis avenue is ill.

Mrs. Walter Fernald of Whipple road has been ill the past few days.

Mrs. Wilbur Hutchins of Pine street is improving from an illness.

Dwight Walker of Kittery Depot is passing a few days with his brother.

bridge, Mass.

Edward Roberts of Providence, R. I., is visiting his sister, Mrs. Charles Gray of Gray Lodge.

Mrs. Ida Averill, Mrs. Everett Pettigrew, Mrs. Elvilde Hendek of North Kittery, Mrs. John Staples and Miss Mamie Cook of Elliot, returned to Portland on Wednesday.

Miss Lillian Stone returned today to her home in North Berwick after passing several months in town.

Miss Geneva Warren returned to her home in Graydon, N. H., on Wednesday after a visit with Mrs. E. E. Shapleigh of Otis avenue.

The Second Christian choir rehearsal will be held on Friday evening at 8 o'clock at the vestry.

Mrs. E. E. Gills of Government street left Wednesday for a few days' visit with relatives in Swampscott, and Andover, Mass.

Miss Hutchins, D. S. N. R. of Boston, has been the recent guest of her parents, Mr. and Mrs. William Hutchins.

The Ladies Aid Society will meet this evening in the vestry of the Methodist church.

Albert Brown of Locke's Cove continues to improve from his illness.

Mrs. Ella May of South Boston has been called here by the serious illness of her aunt, Mrs. Sarah Richardson of Pleasant street.

Mrs. Belle Goodwin of South Berwick was the guest of Mrs. Isaac Lambert of Commercial street on Wednesday.

Forrest Emery of Government street on Saturday concludes his duties with C. D. Boulter, he having been drafted into the army and leaves May 23.

The Herald answers hundreds of questions every day about this city and vicinity.

PROF. FLETCHER OF DARTMOUTH HAS RESIGNED

Hanover, May 16.—The board of trustees of the Thayer School of engineering at Dartmouth College today announced the resignation of Prof. Robert Fletcher, director of the school since 1871.

Prof. Fletcher studied engineering at the College of the City of New York, completing his course at West Point, and receiving in 1883 a second lieutenantcy in the artillery. He has received the honorary degrees of A. M. and Ph.D. from Dartmouth College, has served as member and president of the New Hampshire State Board of Health, of the Society for the Promotion of Engineering Education, and has been consulting engineer on various bridges and water works in New Hampshire.

The trustees have appointed Prof. E. A. Holden as acting director. Prof. Holden has been connected with Dartmouth since 1901 and with the Thayer School since 1903. Both Prof. Holden and Prof. Fletcher have been prominently identified with the survey of the boundary line between Vermont and New Hampshire, the controversy over which is now being heard in the United States Supreme Court.

The board also announced the resignation of an overseer of Gen. Henry L. Abbot, who has served for 23 years. Gen. Abbot is a graduate of West Point, 1853, and was one of the earliest consulting engineers on the Transcontinental railroads. To succeed Gen. Abbot the board has elected Prof. Fletcher.

P. A. C. SCORES TWICE IN MINSTRELS

The second night of the P. A. C. minstrel show at the Portsmouth theatre for the benefit of the Red Cross, attracted an even larger audience than the opening night, and the show was possible a little better.

The performance went a little smoother, although the opening performance was notable for the smooth manner in which it was run off. The second night is always the best from the standpoint of the performers, they know how it is going and have lost whatever little uncertainty they might have as to its success and it goes with more of a swing.

It would be but to repeat what was said of the opening performance to attention to review it, for the first part without any exception was the best show that the P. A. C. has ever put on, and that is saying a lot. The musical numbers were all fine, and everyone of the ballads and songs were sung in a manner that was a credit to singers.

Mary Fraser one of the clever ends was handed a pair of cabbages during his act song, which by the way he sang exceedingly well, but it did not phase him in the least but have him an opening for a short talk to the audience that was good. The closing with the Star Spangled Banner was distinctly a feature.

The club members have worked hard for the success and Fred E. Hasty the general manager and original is entitled to the highest credit for his 1918 success. Horace L. Howe the musical director also shares in this credit, and also every man of the entire company, for they have been untiring in their effort to make it a success and to realize a good sum for the Red Cross.

WAR BOARD A BUSY PLACE

The local Typographical Union were rather hard hit by this call for men for the new National Army, when four of the linotype operators were called. Out of a Union that only boasts of eight operators four taken into the army was rather hard, especially in these days of scarcity of labor.

It is understood that three of the men who were sent from this district to Camp Dix have been discharged for physical disability and will be sent home. Three men will be selected and sent to Camp Dix as soon as the official notice reaches the Local Board.

The Local Board have received a notice that John Henry Downey of this city has enlisted in the naval reserves.

OH! THAT AWFUL BACKACHE IT'S YOUR KIDNEYS

An unhealthy body, and the unhappiness and misery which follow, may be prevented by ordinary judgment and care. Keep your stomach and kidneys in shape and you will have good health. The kidneys' work is to throw off the poisonous matters which enter the body. If they perform this work regularly and automatically the other organs will take care of themselves.

Diseased conditions of the bladder or kidneys are indicated by nervousness, sleeplessness, that tired, worn-out feeling, dizziness, nausea, backache, lumbago, rheumatism, pain in the lower abdomen, many so-called "female troubles," severe pain and discomfort

The next call after the twenty-two men who leave today will be for fifty-five men who will leave on May 25th for Camp Devens. Another call is scheduled for May 29th but this will not be over fifteen or twenty.

At the end of this month the class 1 in this district will pretty well depleted, unless some of the Emergency fleet classifications are revised and only skilled workmen allowed in this class. At the present time laborers and general helpers at the Navy Yard are given Emergency fleet classification, to which the other men in Class 1 rightfully object, but there is no redress, as long as the Navy Yard officials class the men, the local board have to accept their ends.

FURTHER RESTRICT NAVIGATION

London, May 15.—The British admiralty restrictions on navigation in the northern part of the North Sea, in consequence of the laying of a great mine field for the purpose of tolling submarines, became operative today and hereafter all shipping in that area must comply with stringent regulations or ignore them at their own peril. After dark no ship will be allowed within the prescribed area, which lies between the coasts of Norway and Scotland, and any vessel finding itself there after an hour after sunset must anchor in accordance with the admiralty's direction. The regulations include strict rules affecting all except warships entering and leaving ports of northeastern Scotland as well as the Orkney and Shetland Islands.

The vast barrier, which seems to have been overestimated in extent in earlier reports, is now said to cover approximately 22,000 square miles. Many details obviously cannot be divulged, but it is generally accepted that the barrier is designed to follow in as far as possible U-boats and other enemy craft in the northern end of the North Sea in the same manner as the barrier across the Straits of Dover already effectively blocks their access to the Channel. It is remarked that if the barrier is to exclude submarines the mines must have been laid at an unusual depth to cover the limit of the average submarine's diving capacity.

The forbidden area necessarily leaves a gap on each side—on the east because the territorial waters of Norway must be respected and on the west to preserve a passage for shipping and to allow freedom of action for the grand fleet. But notwithstanding limitations, evidence is expressed that the new measures, combined with the recent operations at Zebrugga and Ostend, must greatly handicap the movements of the U-boats and further discourage the hopes that Germans have placed in the submarine campaign.

pressed passages. All these are no-kidneys or bladder, which may lead stringy urine, too frequent or painful urinating, bloody, cloudy and pus-like to not even or steady going down as passing out from your back to fatal Bright's disease.

you. Go to your druggist at once. Get a trial box of GOLD MEDAL Hanford Oil Capsules. They are made of the pure, original, imported Hafflem Oil, the kind your great-grandfather used. About two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. But remember to ask for the imported GOLD MEDAL brand. In sealed packages.

CAPTURES GERMAN AIRPLANE

(By Associated Press)
Paris, May 15.—Although not so exceptional an event as the capture some time ago by cavalry men of a German submarine which had run ashore, the taking of a German airplane by the French was an unusual feat.

Four French territorial whose duties as snipers were limited to taking care of a travelling carrier pigeons' cote.

An night fell that day, a German plane landed gently. In a meadow near Fismes out of sight of any house or apparently any human being. The pilot, who had lost his bearings remained at his post, keeping his engine running and his hand on one of the two machine guns on the machine, while the observer consulted his maps.

They were about to resume their flight when the four territorials rushed out of a little wood close by and gave the word "Hands up!"

Seeing that resistance was useless the officer ordered the pilot to get out and surrender. The victors were armed with a rifle and three hunting guns; their spoils were one unharmed German airplane, two intruders, and two men.

STATE GOLF ASSOCIATION TO MEET HERE

The annual meeting of the New Hampshire State Golf Association will be held at the Portsmouth Country Club on Wednesday May 29th and the 30th.

After the annual election of officers and the other business, which include the question of holding the state championship tournament, will be held a handicap golf tournament for a cup donated by Vice President Winslow Pierce of the local club. This is open to the delegates and all members of the club.

A supper will be served in the club house at six o'clock, it being the opening event of the season.

KILLING A BRUTAL LIE

(From the Brooklyn Standard Union)
The ugly rumor about Red Cross nurses returning from France has been knocked cold by the Federal Grand Jury for this district. The next thing is to deal with those who start such patently malicious reports and also those who repeat them.

Nothing more absurd or more vicious has been whispered around the country than rumor. How it started may be easily guessed, but how such an unfair and cruel statement reflecting upon a body of self-sacrificing and high-minded women spread from town to town, and believed a certain number of those who heard it, is hard to understand.

Do American credit every unlikely or wild rumor that reaches their ears? They have swallowed so many in the past four years that anyone might be pardoned for thinking that we are a very gullible people. But it had been supposed that so many false and misleading statements had been put down that the public had become less credulous, and yet the acceptance of the lie about the Red Cross nurses apparently shows we are still believing in anything that comes our way.

The falsehood which resulted in a Federal investigation originated, no doubt, in some pro-German source. Its

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Portsmouth People Know How to Save It.

Many Portsmouth people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is a Portsmouth citizen's recommendation.

Mrs. M. O. Delano, 137 Northwest Street, says: "Backache used to bother me a great deal and hinder me in my work. Headaches were also frequent and my kidneys were irregular in action. I used one box of Doan's Kidney Pills and certainly got great relief. I recommend this medicine in the highest terms."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Delano had. Foster-Milburn Co., Mrs., Buffalo, N. Y.

SPRAYING

Trees sprayed, trimmed, and cavity work.

J. H. EMERY,
Box 506 Kittery, Me.

purpose was obvious. The aim was to discourage nurses from going abroad and to discredit the service under the Red Cross emblem. But German sympathizers alone could not have given the rumor the currency it had. Patriotic Americans, who should have been on their guard, evidently lent an ear and then their tongues to the scandalous report, not of course, with the intention of doing any harm, but carelessly, thoughtlessly.

Judge Hand pointed out after the jury's presentation that it is a crime to spread unsubstantiated reports which injure just as it is a crime to start them. Therefore Americans should be extremely careful in repeating certain things and watchful to cause the arrest of those who come with wild rumors. "Whispering propaganda" must be stamped out, as was sabotage and German dynamite arguments.

HANG ON TO LIBERTY BONDS

Timely Warning to Those Who May Be Tempted to Trade Them for Unwise Investments.

Several million people who are not used to investing in stocks and bonds have of late become investors in the Liberty loan. The effect, we hear, has not escaped the attention of various bands of thieves; says a writer in the Saturday Evening Post.

The return upon an investment in government bonds—four per cent—seems small out in the country, where money loaned on good farm mortgages has been fetching six or seven or eight per cent. It is said some get-rich-quick artists are piling up their old paraphernalia and preparing to accept Liberty bonds in exchange for engagements that promise far higher returns.

In spite of the laws that many states have enacted, there is still opportunity for the blue-sky swindler to clean up a community and beat the sheriff to the state line. Look out for these gentry. Remember that any investment which promises a very high return, along with absolute security, is quite sure to be a swindle. The shrewdest investors in the world cannot find investments that yield more than six per cent interest and are absolutely free from risk.

Never deal with strangers. If any investment that looks tempting is presented to you, go to the bank and inquire about it. We hope millions of these new investors will keep their Liberty bonds indefinitely. They are convenient things to have. But if you do think of converting your Liberty bond, beware of the wildcat. Do not keep a bond round the house, where accident or theft may put you to much inconvenience or entail an outright loss. Take it to the bank for safekeeping.

ALL HAVE PET SUPERSTITION

Soldiers Hold Firmly to Beliefs Which Have to Do With Good and Bad Luck.

Among soldiers' superstitions, of which the British soldier has his full share, one of the most characteristic is connected with the number three.

"The third time is never the same," is a proverb among the Irish troops. "The third of anything is fatal" is a common expression among the English country battalions. Soldiers have been known to refuse to take their third leave, feeling certain that it would be their last. A soldier's third wound is said to be the one which must be most carefully attended to. A development of this same superstition prohibits the lighting of three cigarettes with one match.

Old numbers, according to the British Tommy, are more likely to be unlucky than even ones, and thirteen is no worse than nine. Friday is an unlucky day has been detested, and there is no particular bad luck connected with any day of the week, in Tommy's estimation. Sunday, however, is pre-eminently a lucky day for battles.

The lucky flower, by common consent, is white lily, and a piece properly tucked away inside the hatband is supposed to save the wearer from a fatal wound. Some regiments regard certain decorations and medals as unlucky, not to the wearer, but to the regiment in general. One very well known battalion objects strongly every time one of its number receives the military cross.

Would Have Pleased "Old Put." The spirit of "Old Put" goes marching on! The doughty New England general of the Revolution, unable to be present in this war, sends David E. Putnam, a direct descendant of Israel Putnam, who has just brought down his third German airplane within a month on the French battle front. He is the nineteen-year-old son of Frederick H. Putnam of Boston and Newton. In a letter received by his mother he says:

"We had been flying about ten minutes when I looked back and saw two machines heading out of Germany. Down on the nearer one I came; my gun throwing out a spray of lead. But when I had fired about 50 shots he got under me, and I shot by toward plane No. 2, leaving No. 1 for my men behind me. No. 2 dived, but I followed, always shooting. We had come down from 12,000 feet to 3,000 in less than it takes to tell it. When suddenly the machine in front wavered and then plunged straight down. It was a triumph! biplane. Oh, I am proud!"

Eczema spreads rapidly; itching almost drives you mad. For quick relief, Doan's Ointment is well recommended. 40c at all stores.

DR. MARTIN TO SUCCEED GORGAS

(By Associated Press)
Washington, May 15.—While it is intimated that Major General William C. Gorgas may be asked to continue as surgeon general of the Army after he reaches the retirement age in October, the possibility that he will retire is resulting in the hunching of campaigns and the mentioning of names of possible successors.

The greatest activity is among prominent Army medical reservists who favor the selection of one of their number to succeed General Gorgas. If a reservist is chosen, Dr. Franklin H. Martin, secretary general of the American College of Surgeons, chairman of the general medical board of the Council of National Defense, and a major in the Medical Reserve Corps, may be the appointee. Regular medical officers are strongly opposed to the selection of a reservist and are campaigning in behalf of a member of regular officers. If the next head of the Army's medical department is a regular officer, the selection may involve the consideration of Brigadier General Charles Richard, William H. Arthur, M. W. Ireland and Francis A. Winter, and Colonel Noble. General Ireland is the surgeon general of Gen. Pershing's forces. Colonel Noble is the director general of base hospitals. All of the officers mentioned are attached to the National Army.

Favors Consolidating Medical Bureaus

Dr. Martin, the favorite of the reservists, is regarded by members of his profession as a keen politician as well as a distinguished physician. He has been in evidence in Washington in an effort to centralize medical authority in the Army and Navy. He is credited with a plan for consolidating the Army medical department, the naval medical corps, and the Public Health Service by forming a new executive department to deal with public health and sanitation.

STILL GETTING GERMANY PROPERTY

San Juan, Porto Rico, May 15.—Approximately \$100,000 worth of Panama Canal and Porto Rico bonds deposited with the treasurer of Porto Rico by six German insurance companies formerly doing business in Porto Rico have been seized by the government and placed in the credit of the Alien Property Custodian. The bonds were required to guarantee the payment of claims to Porto Rico policy holders.

Until recently the bulk of the insurance business of the island was written by German agents in German companies.

M. R. Spelman, representing A. Mitchell Palmer, Enemy Property Custodian, who has been in Porto Rico and the Virgin Islands for the past three weeks, has found enemy property here valued at many hundred thousands of dollars which has either been seized or reported to Washington for seizure.

The day of harsh physics is gone. People want mild, easy laxatives. Doan's Regulax have satisfied thousands. 20c at all drug stores.

James Gorman of Milwaukee, formerly a Northwestern engineer, wrote home to a friend that he was handling the same old locomotive "over there in France" that he used to run "over here."

"Not Arrived? He Left Over An Hour Ago!"

A call such as this from the office, is only one of the shocks that keep a wife more or less anxious until her husband arrives safely home in the evening.

She knows that any one of a hundred accidents may happen to him on the street, in the cars, in the elevator, even in the office. The AETNA has paid claims on 152,667 accidents.

First, she is worried over John's safety. Then, she must come the thought: "What would happen to me if anything happened to John?"

John can so easily remove this anxiety, and prove his consideration and affection in a practical way. If he will only

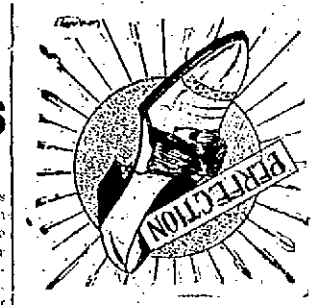

AETNA-IZE

At very little cost—his AETNA ACCIDENT POLICY will insure him an income of from \$10.00 to \$50 weekly in case of disability. Or, will bring her a sum ranging as high as \$10,000 should the accident prove fatal.

Surely, that husband who believes in a square deal will see the justice of investigating this prospective plan today.

NO MORE NAVY GAMES TO BE PLAYED

Boston, May 15.—The Newport Naval Reserves, scheduled to play Camp Devens at Braves Field on next Sunday afternoon, have withdrawn from the game because of the position of Rear Admiral Wood of the First Naval District in regard to the matter of Sunday collections. At Newport admission fees and collections have been permitted, but that is in the Second District, and it was felt that a somewhat delicate situation might arise if the team was to play here under conditions not approved by Rear Admiral Wood, although obtaining in all other districts. Another game will be substituted for Sunday at Braves Field in place of the one originally scheduled. In connection with Newport's enforced action President Percy D. Houghton of the Boston Braves issued the following this morning:

The owners of the Braves, like everybody else in this community, feel that Admiral Wood is making a very serious mistake in frowning upon and prohibiting freewill offerings for recognized war charities and funds, not excepting even the Red Cross itself, at these Sunday afternoon games. It is done in other naval districts without the slightest hesitancy or criticism, and while financially it makes not one penny's difference to the Boston club I do regret the distinction that has been made so adverse to the sailor and his interests.

When the Red Cross wanted to take up a collection at the Army and Navy game a week ago last Sunday the rear admiral based his refusal solely upon his interpretation of the Navy rules—an interpretation wholly different from that made by other district commanders. Now he has shifted.

New England Fuel Administrator URGES COAL FIRE BE ABANDONED

He says that a ton of coal turned into gas by the gas company has greater fuel value than a ton and a half burned in the kitchen range. We have always told you this. Now why do you keep on using coal when it is so scarce and you can get a better fuel by using gas?

PORTSMOUTH GAS CO.,
ALWAYS AT YOUR SERVICE

and is objecting on the ground that the taking of a collection is in violation of the new State law under which these games are being played. This is in spite of the fact that he is quite aware that the Braves have District Attorney Pelletier's ruling that there is no violation; that Mayor Peters has personally urged collections and that the police wholly approve. Rear Admiral Wood surely cannot mean to imply that he is alone capable of interpreting our own State's laws.

It is interesting to note that scores of yards were sold at the Boston Navy Yard's game in Worcester last Sunday as a means of revenue. That was absolutely against the law and would be neither permitted nor attempted at Braves Field. Over 100,000 persons have attended the three games already played at Braves Field and the testimony of all those present, as well as of the police officers, who have attended in their official capacity, is that the crowds have been unusually orderly and well behaved. Also these crowds have been not only willing but anxious to contribute, as attested when collections have been permitted. No one hereabouts shirks doing his "bit"; everybody even welcomes the opportunity.

As conditions now stand, only Army charities and purposes will be aided by the Sunday collections, for Navy teams cannot play if these free-will offerings are taken. All of us are interested alike in the sailor and the sailor and in success of those funds from which they derive admitted and substantial benefit in one form or another. All of us are pleased that the soldier funds can be thus increased and that the people of Boston will regret that Rear Admiral Wood is preventing the sailors from sharing equally with soldier teams in a division of the offerings at Sunday games to be applied to the funds and charities that mean so much to the men in the service.

TELEGRAPH BRIEFS

(By Associated Press)
London, May 15.—"Fabricated" vessels are one of the latest and most interesting developments of Great Britain's shipbuilding drive. A fabricated ship is one whose component parts are manufactured in other than shipbuilding yards, usually in plants inland. The new fabricated ship is larger than most of the standard ships and there is not a curved frame in it.

In fabrication of ships the aim was to increase speed of production and also to utilize for shipbuilding purposes such plants as bridge-building yards and land engine factories. It is expected that ships of the new type soon will materially increase the tonnage output.

London, May 15.—Vice-pastor Astor has been fined \$50 for "causing a patrol to be used unlawfully." The chauffeur of his car was fined \$10.

London, May 15.—Major General Charles John Sackville West, who has been appointed acting British military representative on the Supreme War Council at Versailles, is a brother of the present Lord Sackville and has been in France since 1914. He was promoted Lieutenant-Colonel in 1914; in 1917 became Brigadier General and in November 1917 temporary Major-General. He was wounded in France in August 1916. The general joined the Kings Royal Rifle in 1889 when nineteen years old and served in Manbury, Burma and in the South African war.

Tokio, May 15.—Warning that adverse economic conditions may develop on Japan as a result of the war was given by the Japanese Premier, Count Terauchi, in an address delivered recently before the annual meeting of the clearing house banks. Responsibility of averting a disaster, he said, rested upon the bankers of Japan. The premier remarked that the necessity of industrial independence

had been vividly brought home to Japan in consequence of the war and it was because of this that the government had introduced into the last session of the Diet projects tending towards the achievement of this independence.

Mr. Shoda, Finance Minister, who followed Count Terauchi, said that the government in compiling the estimates for the current fiscal year paid the utmost attention to the perfection of the national defense. A project was mapped out for the building of two battle-cruisers, three cruisers, and seventy-five other warships of all sorts at a total cost equivalent to \$160,000,000 the disbursement of which was to be spread over six years. This together with the expenditure of \$141,000,000 which had already been expended for the total naval expenditure to be defrayed during the next six years to about \$292,000,000.

London, May 15.—American soldiers training in camps in England were somewhat startled last week to read an official notice stating that in future the British postoffice would not undertake the delivery of letters addressed to them. Investigation, however, showed that all the announcements had been appointed to collect direct from the local postoffice and deliver all letters addressed to men in camp or barracks. At the front this duty is performed by members of various non-combatant departments.

Nantucket, May 15.—After a fight which lasted over 15 years the town tonight voted to allow motor cars on the island for the first time. The vote was 335 for 295 against the presence of motor cars on the island.

FRENCH WIN LOST GROUND

(By Associated Press)

Still another day has passed without the Germans renewing their offensive in Flanders and Picardy. No where have the infantry on either side of the battle front, or for that matter in all of the theatres of war.

have they arisen above patrol engagements on Tuesday gained a footing North of Mount Kemmel where the on Hill 44, one of the bloodiest sectors of war, the French have succeeded in retaking all of the land lost after a severe counter attack, and who later expelled the Germans from the shell holes to which they had stubbornly clung.

Likewise south of Hatties in Amiens the French have taken another bit in the German line and they have also wiped out a German counter attack. The Germans in this attack suffering heavily in killed and wounded and taken prisoners.

Throughout Wednesday the British were left alone. Although the enemy is keeping his infantry back but is using his artillery in heavy bombardment in both Flanders and Picardy, especially south of Albert and north of Kemmel, Montdidier and the line to Noyon has also been under heavy fire.

American airmen over the battle front near Toul are reported to be performing notable feats, Wednesday they brought down three German planes and all were shot down. The French have been greatly pleased with the airmen and have decorated five of them with the War Cross.

Another famous treason trial has ended with the conviction of the seven defendants of the Germunophilic evening newspaper Bonnet Rouge. M. Duval the editor in chief was given the death sentence and the others were sentenced to from two to ten years in prison.

Japanese Scarfs

AND

Japanese Doily Sets

AT THE

D. F. BORTHWICK STORE

ATLANTIC NEWS

Bachelor quarters are being maintained by Messrs. Carroll, McSorley and McKee in a house back on the hill, which has all modern conveniences, minus electric or gas lighting, running water and heat of any kind. When interviewed Mr. Carroll said he didn't mind these little inconveniences but oh how he missed the women folks.

The new Chief of the Fire and Police Department, Mr. Thompson, has taken up his duties, and is building up quite an organization. All men connected with these departments should occasionally examine the charts to acquaint themselves with their divisions. Mr. Purgol, United States Fire Marshal and Mr. Cunningham, Government Supervisor Guard, who were here to examine the organization said that it is one of the best planned in the east.

The opportunity is now at hand for overtime work, especially in connection with yard work. Men ought not to be afraid to put in some overtime once in a while. If they were in the trenches they would not drop their guns when the whistle blew, but they would adjust their gas masks and get ready to repel the gas attack. We should remember that we are doing our bit here, the same as the boys on the other side are doing their bit, and with considerably less risk to our own personal selves.

The employment department is one of the busiest departments, hiring men in every capacity of shipbuilding industry. Men in the vicinity of Portsmouth who have any ability in this line would do well to apply for positions.

WHO OWNS HOMING PIGEON?

A disabled homing pigeon is at the

Plant of the American Agricultural Chemical Company. The bird is numbered 7329 and is getting the best of care by the men there who are anxious to locate the owner.

MANY NEW MEMBERS JOIN THE UNION

The local union of International Brotherhood of Boilermakers, Iron Ship Builders and Helpers were busy on Wednesday night in the work installing over 100 new members. Joseph L. Mahar of Boston, a general organizer, was present and assisted in the work. The organization in this city now has a membership of 400.

EVERY TUESDAY

All our dancers will realize that the summer season is here when they learn that the popular Whitman Festival Orchestra will make its initial 1918 appearance in Freeman's hall on Tuesday evening next week. It is not necessary to say anything about this orchestra for its qualifications are too well known. With the right swing, with the late and popular dance hits, with a fascinating way of dispensing music, a way altogether their own, splendid programs are in store for the dancers. If you are in Portsmouth and Tuesday evening go to Freeman's hall on the Piscataqua, the mecca of pleasure lovers, the home of Quality Dances, the largest, coolest and most popular hall in New Hampshire. With the Whitman players besides Mr. Whitman himself will be found Clara Wentworth Marden of this city; Arthur Nevins of Concord, William Sturtevant of Lynn and several other quality musicians. Every Tuesday evening.

The main thing about a job is to be ready whether needed or not—join the State Guard.

TWENTY-TWO MEN IN TODAY'S CALL

National Army Men Left For New Hampshire College For Special Training

A detachment of twenty-two men from this District left at 8:15 this morning for New Hampshire College to undergo special training along mechanical lines for the National Army with special reference to service with Gen. Pershing's army in France.

This is the second call that the government has made on this district for men for special training the other being for Tufts College, and the requirements are that the men must have at least a grammar school education and some mechanical ability and be physically fit for general service.

The men with the exception of one man who was just reported in Philadelphia and possible did not get his notice in time, reported to the Local Board at three o'clock on Wednesday afternoon when they became members of the National Army.

Chairman Spinnery gave the men their general instructions and Chairman F. M. Sise of the Red Cross Home Service Committee, addressed the men on the question of the government insurance, explaining it and urging every man to take it out to some extent, the sums being from one to ten thousand dollars at a rate that only the government can afford to allow. The matter of allotment was also explained.

Mr. William H. Cullen of this city was appointed in Command of the men and all those who could get home and be back at the War Board at 7:30 this morning were allowed to do so, while the remainder were provided with accommodations for the night at the Army and Navy Home.

The men reported at 7:30 this morning for final instruction and then marched to the depot and a band accompanied them.

The men of the call are as follows:

With the volunteers designated, only one change has been made, Benjamin F. Fifield of Haverhill is ill and Shirley G. Godfrey of Stratham took his place.

Charles Edward Warner, Newton Jet, Factory worker.

Edward W. Austin, Kittery, Pt. Me., Linotype Operator.

Elton Gray George, Newton, N. H., Shoemaker.

George Pratte, 3 Spring St., Newmarket, Factory worker.

George M. Gilbert, 51 Manning St., Portsmouth, Linotype Operator.

Walter Howard Hanson, Rockingham, N. H., Telegraph Operator.

William Henry Cullen, 200 Gates St., Portsmouth, Linotype Operator.

Joseph Belmont, 81 Hill St., Portsmouth, Lineman.

Ransom Smith Carleton, 44 High St., Portsmouth, Electrician.

Frank Warren Plumber, 132 Maplewood Ave., Portsmouth, Electrician.

Barie Walter Caswell, 1160 Elwyn Ave., Portsmouth, Auto Driver.

William Henry Howard, 60 Washington St., Portsmouth, Shoemaker.

Shirley G. Godfrey, Stratham.

Ivey B. Fogg, North Hampton, N. H., Clerk.

Dennis Peter O'Leary, 310 Thornton St., Portsmouth.

David K. Irving, Hampton Falls, N. H., Shoemaker.

Carl Stewart Stevens, Kingston, N. H., Draftsman.

Gordon Sanford Chamberlain, R. F. D. 1, Amesbury, Mass.

Saul Sussman, 453 Islington St., Portsmouth, Factory worker.

Thos. E. Millel, 609 N. 15th St., Philadelphia, Auto Driver.

Augustus Coghill, 85 Gates St., Portsmouth, M. P. Operator.

Dexter Edgar Gyan, 46 Prospect St., Bradford, Mass., Shoemaker.

Cross this season and much has been accomplished.

THE HERALD HEARS

That the absence of workmen from Middle street on another part of the job certainly started all kinds of rumors in the air.

That the contractors on this job are not the only ones having trouble because workmen cannot get beer.

That the government is feeling this loss in the same way.

That with men being drafted and others taking discharges because they cannot have beer, is becoming alarming to managers of the emergency fleets.

That a hundred pounds of mail was carried by airplane from New York to Philadelphia and Washington.

A letter for President Wilson was in the package. The run was scheduled to take 150 minutes and the rate of postage was 24 cents an ounce.

That a chicken with four perfect legs is owned by a Boylston, Mass., farmer.

That Bishop Lines of the Protestant Episcopal church urges women to dress more simply.

That the Rev. Gentleman will be required to do more than urge this reform if he ever hopes to see it carried out in some places.

That the Newington shipyard has some active fire fighting brigade.

That a two-year-old Los Angeles baby shot himself with his father's revolver when the mother imagined the infant was taking a nap.

That the Kittery ferryboat which started some time ago on a cruise to Grand Isle, Vt., via the Hudson river and Lake Champlain, is still in Boston undergoing minor repairs.

That actors have asked the federal trade commission to break the "stage trust."

That the board of public works meet tonight.

That the police are insisting that junk dealers display their badges.

That Austin P. Ellingwood, the new patrolman in the police department, was sworn in on Wednesday.

That the United Shoe Stores Company will shortly open for business at 23 Market street.

That the winter's supply of black diamonds is going into the basement of City Hall.

That the ball game at 6 p. m. today is for the K. of C. war fund and promises to be a lively one.

That the food administration says out less meat.

That the price of meat has regulated that long before now and the people do not need much advice on it.

WORKED FOR RED CROSS.

The Inasmuch Circle of King's Daughters met on Tuesday in the parish house and the time was devoted to Red Cross work. The Circle has worked diligently for the Red

WANTED TO TAKE CAT WITH HIM

Kittery Man Tries to Enlist in Marine Corps, With Cat to Kill Rats in Trenches.

A well known fisherman of Kittery, who went to Boston Wednesday with the purpose of enlisting in the U. S. Marine Corps, surprised the recruiting officers when he walked into their office with a large black cat cuddled under his arm. The feline seemed quite used to its position, which was an extraordinary one for a respectable cat, but the sergeant in charge was rather curious.

When questioned by the sergeant as to his reason for having the feline, the Kittery man said that he wasn't going to take any chances with the rats in the trenches and believing in "safety first," he intended to have the cat enlist, too, and carry it along with him. The officers agreed to this, but upon being physically examined he failed to pass. And he blamed it on the tabby.

Before leaving he told the recruiting officers that he intended to come back next month with a yellow cat. He says he has two of them who have gone around the world twice with him in a fishing boat.

STOLE BABY CARRIAGE

Stroller Taken From Congress Street While Mother Was Visiting.

Stealing fords and robbing war gardens is an old story but the limit in the stealing line was reached a few days ago when somebody annexed themselves to a baby carriage owned by Mrs. Martin McCabe on Congress street. The mother calling on a friend in the block opposite the Kearsage House, left the carriage in the entry off the street. When she returned her property was missing and baby got no ride home.

The scarcity and high prices of perambulators may have been the reason for pinching this stroller, but the owner says if any parents can enjoy wheeling around a child in a stolen carriage they are welcome to the infant conveyance. A little camouflage by some artist with a paint brush did the rest.

FUNERAL NOTICE

The funeral services of Arthur M. Doolittle will be held from the home, 603 Broad street Friday afternoon at 4 o'clock. Friends invited. Kindly omit flowers.

Smart and Comfortable Oxfords.

You have noticed how stunning a patent leather oxford can be with many a costume. This one is a new design with most wanted features. The difficulty has been to find oxfords that close about the ankle. You may trust to the skill of designing and to Knight's service in fitting. This oxford will be comfortable.

A Pump for Street Wear.

The daintiest of patent leather pumps in appearance, but suitable for street wear. This has the new toe. And note the new Louis heel, full, slender, graceful. Spats in the new grays and fawns make an effective outfit.

Two Things Every American Should Know ALL ABOUT

Thrift Stamps cost 25 cents. Sixteen Thrift Stamps (plus 14 cents) buy a War Savings Stamp.

War Savings Stamps—the simplest and safest investment in the world. Cost \$4.14 now. Brings you \$5.00 on January 1, 1923. Can be cashed before 1923, if you give ten days' notice.

A War Savings Stamp is a Diploma of Thrift, of Saving, of Service. Start getting yours now by buying a Thrift Stamp with that "Slacker" quarter.

Buy Thrift and War Savings Stamps at your Post Office or at any Bank.

New Victor Records of
Sextette from "Lucia"
Quartette from "Rigoletto"

These two great operatic numbers are "the last words" in gorgeous and dramatic ensemble music. Sung by prodigally gifted and world-famous Victor artists they bring the thrill of a life time to the music-loving.

The "Sextette" is by Galli-Curci (the new operatic sensation), Egner, Caruso, DeLuca, Journet and Bada.

Victor Red Seal Record 95121. Twelve-inch, 24.

The "Quartette" is by Galli-Curci, Perini, Caruso, DeLuca.

Victor Red Seal Record 95100. Twelve-inch, 24.

By all means give yourself the pleasure of hearing these records at our store. They are among the
